# DRAINCHEM

SEWER MAINTENANCE PRODUCTS

Model shown:  
King Cobra

### Product Description:

Aussie high pressure drain cleaning machines have revolutionised the way that blocked drains are cleared.

The Cobra range makes short work of drains blocked by tree roots with a unique drain cleaning head called the Turbo Root Mulcher. It vibrates and rotates, clearing roots with a super high powered spinning water jet.

Supplied with a full range of nozzles these machines make drain cleaning quick, safe and easy.

### Applications:

Drain cleaning applications including;

- High pressure clearing of tree roots from drains
- Removing grease and fat
- Sand and silt removal

High pressure cleaning of hard surfaces including;

- Graffiti removal
- Brick cleaning
- Roof restoration
- Driveway cleaning
- Car park clean up
- Paint preparation

### Specifications:

| Model             | Pump Pressure (psi) | EWP Pressure with turbo lance | Flow rate (lpm) | Engine               | Pump rpm | Hose length (m) | Weight (kg) | Dimensions (mm) |
|-------------------|---------------------|-------------------------------|-----------------|----------------------|----------|-----------------|-------------|-----------------|
| Mini Cobra        | 4000                | 6485                          | 15              | Honda                | 13HP     | 1450            | 80          | 600x870x1200    |
| Aussie Cobra      | 4300                | 6785                          | 21              | Honda Electric start | 20HP     | 1450            | 130         | 630x860x1350    |
| King Cobra        | 5000                | 8500                          | 21.5            | Honda Electric start | 24HP     | 1450            | 140         | 630x860x1350    |
| <b>NEW</b> Python | 4300                | 6485                          | 31              | Vanguard Electric    | 31HP     | 1450            | 190         | 900x1100x1200   |

### Features:

- Genuine industrial Honda or Vanguard engines with low oil shutdown
- "Big Berty" Bertolini pump with brass pump head, stainless steel valves, exclusive double seal system, solid ceramic pistons, and oversized straight roller bearings
- Galvanised roll frame with anti-vibration mounts with 10" pneumatic wheels with sealed bearings
- Heavy duty steel hose reel with R8 1/4" sewer hose— 5000 psi rated
- Complete nozzle box featuring Turbo Root Mulcher, Predator, Negotiator, Compressor nozzles and tip cleaner
- **ASP Safety System** including thermal dump valve and safety over-pressure valve protection  
\* **Exceeds Australian Standards**
- Optional ute mount kit

### Standard Accessories:

- Aussie Reel Quick hose reel, 5000 psi rated, 2 year no leak warranty.
- 1/4 " R8 flexible sewer hose, 30 m on Mini Cobra, 60 m on Cobra, King Cobra & Python
- Aussie drain cleaning nozzle pack as above
- 5000 psi rated gun and stainless steel lance for pressure cleaning of hard surfaces.

### Benefits:

- Powerful and reliable, backed by an Australia wide service network, and two year warranty
- Provides superior performance with a longer running life
- Robust build, easy to manoeuvre, resists rust
- Protection against pressure spikes and overheating during extended running on by-pass
- Nozzles that outlast any other on the market, 431 stainless steel
- Protection for both the operator and the machine

### Optional Accessories:

- Aussie Viper remote mini reel with safety on/off ball valve and gauge
- 1/8" Super Worm whip hose for small drains
- Turbo lance for increased cleaning performance
- Rotary surface cleaners for fast cleaning of flat surfaces such as driveways
- Low and high pressure live reels

- The Warthog WT 3/8 nozzle boasts patented control rotation, fewer more powerful jets and replaceable attack tips to clear blockages. This nozzle will cut through blockages with its 15 degree offset front jet and then the two large rear jets cut through roots and clear the blockage. Often considered the most powerful sewer cleaning nozzle available.

- The Root Rat is a water driven chain and cable rotor that will run on jetters as low as 15 litres per minute. Available to suit 3/8" and 1/2" hose, both will travel around a 90 degree bend and come complete with both chain and wire cable for root cutting and pipe descaling.

- The Mustang Root Ranger is a cost effective turbine with one rear thrust port and universal adaptor for the option of quick release coupling. Forward port options also available.

- GREASE RELEASE is a degreasing agent that effectively reduces grease build-up in sewer pipes and helps return sewers to free flowing conditions. GREASE RELEASE penetrates and breaks down grease and by coating the pipe with a grease repelling barrier, it will minimize build-up. GREASE RELEASE contains mild surfactants that are biodegradable, non-caustic, and non-corrosive and does not contain phosphates.

- The Aquaeq Global range of nozzles are available to suit 1/4, 3/8, 1/2, 3/4, 1 and 1 1/4 inch hose. The water bearing walls reduce friction and pressure loss resulting in a more powerful jet stream and improved performance from your jetter.
